

Help us keep leftover paint out of landfills and waterways! The Saskatchewan Paint Stewardship Program was established by Product Care Association to meet the requirements of the Saskatchewan Waste Paint Management Regulations. Product Care is a non-profit association - our members are the manufacturers, distributors and retailers of paint products.

It's easy - leftover household paint (see details inside) can be dropped off at any of SARCAN's 70 recycling depots, province-wide, without charge. The collected paint is reused, recycled into other products or used for its energy value.

REDUCE & RECYCLE

Please Do Your Part... Follow the B.U.D. Rule

- Buy...** only the amount you need. Your retailer can help you estimate how much paint you require.
- Use...** what you buy. Add an extra coat of paint. Save leftover product for future use.
- Dispose...** of leftovers safely & responsibly at a depot

FREE PAINT !

Every SARCAN depot maintains a supply of leftover paint for reuse, which is available to the public without charge. (Please note, paint is not inspected and cannot be guaranteed.)

STORING PAINT FOR LATER USE:

- Store products in original, securely sealed & labeled containers.
- Store paint away from extreme heat or cold. Avoid freezing paint.
- Paint can be stored! Clean the rim for a good seal. Pour 3 mm (1/8") of paint thinner on top of oil-based paint, or 3 mm (1/8") of water on latex paint or store upside down.

PROGRAM FUNDING:

The program is funded by eco-fees paid to Product Care by its member companies. All eco-fee revenue is applied to the program. The eco-fee is NOT a tax and not a refundable deposit. No part of the eco-fee is remitted to the government. Most retailers show the eco-fee separately at the point of purchase, in which case, the eco-fee is not subject to PST, however eco-fees are subject to GST.

Paint Eco-Fees	
100 ml to 250 ml	\$0.10
251 ml to 1 litre	\$0.25
1.01 litres to 5 litres	\$0.40
5.01 litres to 23 litres	\$1.00
Aerosol Paint (all sizes)	\$0.10

Effective: July 18, 2006
