Pesticides			
<p>Means pesticides including fungicides, herbicides and insecticides registered under the <i>Pest Control Products Act (Canada)</i> bearing the “DOMESTIC” classification that are required to display on the label the symbol shown in Schedule III of the <i>Pest Control Products Regulation (Canada)</i>, the signal words “danger” or “warning” and “poison” and represented by the precautionary symbols octagon or diamond and the skull and crossbones.</p>			
Notes	Sectors into which Pesticides are Supplied	Inclusions	Exclusions
<ul style="list-style-type: none"> <li>Includes containers in which it is contained.</li> <li>Products that match the definition of both Paints and Coatings and Pesticides are to be reported under Pesticides.</li> </ul>	<ul style="list-style-type: none"> <li>Residential</li> <li>Designated IC&amp;I Businesses (small quantity generator)</li> </ul>	<ul style="list-style-type: none"> <li>Pesticides meeting the definition that bears the “DOMESTIC” classification</li> <li>Pesticides in aerosol containers that match the definition of Pesticides</li> <li>Pesticides supplied in containers equal to or less than 30 litres and/or 30 kilograms</li> </ul>	<ul style="list-style-type: none"> <li>Commercial, agricultural and restricted classifications registered under the Pest Control Products Act (Canada)</li> <li>Insect repellents for personal use</li> <li>Sanitizers, disinfectants and anti-microbial products</li> <li>Pet products</li> <li>Products regulated under the Food and Drug Act (Canada)</li> <li>Pool chemicals</li> <li>Insecticidal soaps</li> <li>Diatomaceous earth</li> <li>Ant traps</li> <li>Liquid or Solid Pesticide supplied in containers greater than 30 litres and/or 30kilograms</li> </ul>

**Solvents**

Means liquid products that are intended to be used to dissolve or thin a compatible substance and:

1. Are comprised of 10% or more of water-immiscible liquid hydrocarbons, including halogen-substituted liquid hydrocarbons; or
2. Are flammable as described in part (c) of “municipal hazardous waste” in Ontario Reg. 542; or
3. All of the above.

Notes	Sectors into which Solvents are Supplied	Examples	Exclusions
<ul style="list-style-type: none"> <li>• Includes containers in which it is contained.</li> <li>• Water-miscibility means the ability of a material (or mixture) to mix uniformly with water, without separating. A 1:5 ratio of material to water at 20°C does not display visible separation in less than 1 hour. This includes mixing by dissolving, reacting, suspending, or dispersing. [ref. CSA Z752].</li> </ul>	<ul style="list-style-type: none"> <li>• Residential</li> <li>• Designated IC&amp;I Businesses (small quantity generator)</li> </ul>	<ul style="list-style-type: none"> <li>• Turpentine, alcohols (methanol, isopropanol, ethanol), ketones (acetone, methyl ethyl ketone), mineral spirits</li> <li>• Xylene, toluene, linseed oil, naphtha, methylene chloride</li> <li>• Automotive body resin solvents, contact cement thinners, degreasers</li> <li>• Products marked as paint thinners, lacquer thinners, paint strippers</li> <li>• Solvents in aerosol containers that match the definition of Solvents</li> <li>• Solvents supplied in containers equal to or less than 30 litres and or 30 kilograms</li> </ul>	<ul style="list-style-type: none"> <li>• Products supplied as fuels</li> <li>• Household cleaning products that are not supplied as solvents</li> <li>• Products supplied in containers with a volume greater than 30 L or 30 kg</li> </ul>

Fertilizers			
Means packaged products regulated under the <i>Fertilizers Act (Canada)</i> .			
Notes	Sectors into which Fertilizers are Supplied	Inclusions	Exclusions
<ul style="list-style-type: none"> <li>Includes containers in which it is contained.</li> </ul>	<ul style="list-style-type: none"> <li>Residential</li> <li>Designated IC&amp;I Businesses (small quantity generator)</li> </ul>	<ul style="list-style-type: none"> <li>All N-P-K fertilizers, micronutrients and supplements that are required to be registered under the Fertilizers Act (Canada), and therefore would bear a Fertilizers Act registration number supplied in containers equal to or less than 30 litres and or 30 kilograms including:               <ul style="list-style-type: none"> <li>A) Products that have a registration number and are used by homeowners, commercial applications, or agricultural operations</li> <li>B) Herbicide and fertilizer combination products (weed and feed)</li> <li>C) Crabgrass control and fertilizer combination products, other fertilizer and pesticide combination products</li> <li>D) Micronutrient mixes that contain micronutrient only such as chelated iron or chelated copper</li> <li>E) Fertilizers that are growth regulants as rooting hormones</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Compost (that does not make an N-P-K claim)</li> <li>Fertilizers and supplements exempted from registration including:               <ul style="list-style-type: none"> <li>A) Fertilizers and supplements set out in Schedule II (<i>Fertilizer Regulations</i>);</li> <li>B) Farm fertilizers that do not contain pesticides and that satisfy section 10 (<i>Fertilizer Regulations</i>);</li> <li>C) Supplements sold only for correction of soil acidity or alkalinity;</li> <li>D) Supplements referred to in subsections 10.2(1), 10.2(1.1), 10.2(3) and 10.2(5) (<i>Fertilizer Regulations</i>)</li> <li>E) Peat, peat moss, sphagnum moss, tree bark and other fibrous organic matter that is represented for use only in improving the physical conditions of the soil;</li> <li>F) Customer-formula fertilizers;</li> <li>G) Specialty fertilizers, other than those referred to in paragraph (b) of the definition “specialty fertilizers”, that do not contain pesticides, and</li> <li>H) Potting soils that contain supplements, if those supplements are registered under the <i>Fertilizers Act (Canada)</i></li> <li>I) Fertilizers supplied in containers greater than 30 litres and/or 30 kilograms</li> </ul> </li> </ul>
