Saskatchewan Paint Environmental Handling Fees

The program is funded entirely by Environmental Handling Fees (EHF) remitted by ReGeneration's industry members. Environmental Handling Fees are paid by ReGeneration members based on their unit sales in the provinces where ReGeneration has programs and may be shown separately or may be included in the product price and are subject to GST.

If the environmental handling fee is shown separately on the sales receipt by the paint retailer then PST does not apply to the fee. No part of the environmental fee is remitted to the government.

Paint Products
