

Commercial Volumes Application Form Crushed Lamp Pick-Up Services

Large volume generators in British Columbia, including businesses, contractors, relampers, schools, building managers, can qualify for a free pick-up service to recycle their lamps through Product Care.

Option 1: Pick-Up Service for Whole Lamps – minimum of one pallet

Large volume generators are encouraged to consolidate a minimum of one pallet or more of whole lamps (i.e. lamps that have not been intentionally crushed) to qualify for a free pick-up service. A consolidated pallet of lamps should contain approximately:

- 750 4 foot fluorescent tubes, or;
- 1,200 CFLs, or;
- 600 HID lamps or;
- A combination of lamp types that would equate to the same volume.

Note: lamps vary in size. The above estimates are guidelines only.

If you are able to generate a minimum of one pallet of lamps within a reasonable period of time, direct pick-up is a convenient option. Product Care requires the lamps to be safely packaged before picking up, and will supply approved collection containers at no cost if required. Collection containers can be requested in advance. Containers and lamps MUST be protected from the weather and remain dry.

Option 2: Pick-Up Service for Pre-Crushed Lamps – minimum of two drums

Some large volume generators use equipment such as a drum-top crusher to crush lamps in order to reduce required storage space. Large volume generators that have consolidated a minimum of two full UN-approved drums of crushed lamps will qualify for a free pick-up service. Replacement drums are supplied, at no charge, upon request when drums are picked up.

NOTE: The contents of each drum is limited to 1 filter and crushed lamps only (no whole lamps).

Option 3: Drop-off at collection site – less than minimum volume for pickup

Product Care's program also includes collection sites for consumers with household quantities of lamps as well as separate collection sites designated to accept lamps from businesses and contractors that do not generate enough lamps to qualify for the pick-up services outlined above. These large volume generator collection sites will NOT accept volumes of lamps that exceed one pallet and do NOT accept intentionally crushed lamps. See www.productcare.org for more information.

Complete this Application Form for Pick-up Service

Please complete this application form to be registered as a large volume generator with the program to receive lamp pick-up services.

Once completed, the form can be emailed to bcdispatchlights@productcare.org (preferred option) or faxed to 604 592-2982. If you have questions on this matter, please contact bcdispatchlights@productcare.org or by phone at 1-888-811-6234. (ext 353)
